ibrahimustun.github.io/iu_portfolio

Ankara, Türkiye | +90 510 223 83 13

I'm a passionate Software Developer with experience in Unity, Front-End (HTML, CSS, JavaScript), and application design. I'm skilled in Java and C#, and I love solving problems and creating innovative, user friendly software

Work Experience

Web Designer

Dec 2024 - Jan 2025

Seta Medya | Ankara

Used WordPress to design and maintain user-friendly websites, gaining hands-on experience in layout design, content management, and site optimization, while enhancing my web design skills.

Software Engineer

Sep 2024 - Dec 2024

İtimat Asansör

I worked as a freelancer on a warehouse management application project for İtimat Asansör, gaining hands-on experience with Java, MySQL, and Vue.js technologies.

Projects

Ibu

Dec 2024 - Mar 2025

Developed a 2D platform game using Unity, free assets from Unity Asset Store, and C#. Ongoing development to enhance gameplay and features.

Frog Feeder

Nov 2024 - Nov 2024

Developed an entertaining game called Frog Feeder using Unity and C#, focusing on engaging gameplay and fun mechanics.

itimatDepoWS

Sep 2024 - Jan 2025

itimatDepoWS is a backend application developed using MySQL, Java, Spring, and Tomcat. It serves as the backend for the SkyUp warehouse tracking application, providing efficient data management and supporting the overall performance of the system.

SkyUp

Sep 2024 - Jan 2025

SkyUp is the frontend of the itimatDepoWS backend application, developed using Vue.js. and bootstrap. It is a warehouse tracking application that aims to enhance the application's performance with a user-friendly interface and efficient data management.

2048

Sep 2022 - Sep 2022

A simple 2048 game was created for PC using Unity and C#. Players slide and combine numbers to reach the 2048 tile. The game features smooth controls and a clean design.

Mr. Karpuz

Aug 2021 - Aug 2021

Mister Karpuz is a 2D game prototype consisting of three levels, developed using C# and Unity. The game features engaging gameplay mechanics and demonstrates my ability to design and develop interactive experiences using these technologies.

USTUN

Jul 2021 - Aug 2021

USTUN is an e-commerce website developed using HTML, CSS, PHP, and MS SQL, focusing on creating a user-friendly online shopping experience.

Core Skills
